## DR. KENNEDY QUILTS PASTORATE OF FIRST BAPTIST CHURCH

POPULAR MINISTER RESIGNS  
TO TAKE PASTORATE  
IN UVALDE

At the regular services of the First Baptist church Sunday morning at 11 o'clock, Dr. E. P. Kennedy, pastor, tendered his resignation which was accepted, effective March 1. He will leave Corsicana to accept the pastorate of the First Baptist church at Uvalde, Texas. The resignation was tendered at the close of the preaching service and for a few moments, the situation was tense concerning the acceptance of the resignation of Dr. Kennedy and apparently only the desire of the pastor to resign caused the membership to vote to allow him to quit. C. C. Roberts, chairman of the board of deacons, presided and later was elected as moderator of the church until such time as a successor has been elected to fill Dr. Kennedy's place. Many testimonials of the regard of the congregation for Dr. Kennedy and his work since he has been in Corsicana were voiced.

Dr. Kennedy came to Corsicana, January 1, 1921, and at the time of his resignation, was entering upon his sixth year as the pastor of the First Baptist church. He came to Corsicana from Beaumont. The writer wrote the account of his acceptance in Beaumont of the pastorate of the First Baptist church here. When he tendered his resignation in Beaumont, the congregation at first refused to accept it. He was pastor when a large church building was constructed in Beaumont.

During the pastorate of Dr. Kennedy, the fine new building of the First Baptist church here has been constructed.

At Uvalde, a new \$75,000.00 building is under construction at the present time and will be completed within the next few months.

Dr. Kennedy is popular among the citizens of the city and is a member of the Corsicana Rotary. He has taken an active part in the various community buildings of the city since he has been here.

One of the members said that Dr. Kennedy was the friend of everyone in town and was a good and consecrated man. He was loathe to see the pastor leave.

C. H. DeLafose, chairman of the pulpit committee when Dr. Kennedy was called as the pastor of the church here, made a motion that the resignation be accepted in order to conform with the desires of Dr. Kennedy to be relieved of his duties.

Plans for a public entertainment in honor of Dr. Kennedy were discussed by some of the members. Dr. Kennedy stated that he did not desire a public entertainment and asked that no entertainment be given.

C. C. Roberts announced Monday that no one had been elected to succeed Dr. Kennedy as pastor.

R. F. Shaw of Frost was a business visitor in Corsicana Monday afternoon.

J. M. Scott of Frost was a business visitor in Corsicana Saturday afternoon.

Oscar Elkins of Emhouse was a business visitor in Corsicana Saturday afternoon.

## Q. GRACE AND WIFE FREED DISTRICT COURT OF CHARGED MURDER

WERE CHARGED WITH KILLING  
CORSICANA POLICE  
OFFICER AT HOME

The final chapter was written in the cases of Q. Grace and Maud Grace, his wife, in district court Monday morning, when the cases were dismissed on motion in behalf of the prosecution made by County Attorney Ballard W. George.

Grace and his wife were charged by indictment with murder in connection with the fatal shooting of Vess Arp, city policeman, the night of January 4, 1924. Grace faced another indictment for robbery. It was likewise dismissed.

The cases were called at 10 o'clock in Judge Scarborough's court. The defendants were present in the courtroom and announced ready for trial through their attorneys, Gibson & Lovett.

County Attorney Ballard W. George announced to the court that the State witnesses whereabouts are unknown, and that although every effort had been made to summon them for the trial, they could not be found. Therefore, he said, in accordance with agreement made at the last time the cases were called, he moved for a dismissal.

Arp was shot at Grace's home on North Eleventh street when he and going with Officer Speed and G. C. McCain, Jimmie Wells and Paul Nevels to investigate a reported hi-jacking.

On the night of the shooting McCain, Wells and Nevels reported to the police that Grace had held them up. The complaining witnesses and the two officers went to the Grace house shortly after midnight. It was then the shooting took place. A bullet struck Arp in the abdomen, and he was taken immediately to the County Hospital where he died a week later from the effects of the bullet.

The Graces were arrested and lodged in jail. Bond was made later. McCain, Wells and Nevels left Corsicana after testifying before the grand jury, and have not returned.

The city government employed a special prosecutor in the cases. Injunctive process was brought in the district court restraining the city in its action of appropriating

## GERALD CHAPMAN LOSES APPEAL BE RETURNED PRISON

NOTED MAIL BANDIT SENTENCED TO HANG ON THIRD DAY MARCH

By Associated Press.

New York, Feb. 15.—Gerald Chapman, convicted bandit-murderer, today lost his appeal to the United States circuit court of appeals for a writ of habeas corpus.

Chapman, who is now under sentence to hang on March 3rd for the murder of a New Britain, Connecticut, policeman, sought by the proceedings to be returned to the Atlanta penitentiary, where he escaped after serving only a short part of the twenty-five year sentence or the \$1,000,000 mail robbery in New York.

## HANDCUFFED NEGRO WANTED ON BURGLAR CHARGE, WALKS AWAY

City officers arrested Jimmy Turner, negro, here during the week-end for Hubbard, officers on a charge of burglarizing the Hubbard Ice Company and the taking of a pistol and about \$30.00. Late Saturday night the accused negro was turned over to City Marshal Lon Foster of Hubbard. The officer and the prisoner and several other people who accompanied the officer to Corsicana went to the Vogue Cafe for something to eat prior to returning to Hubbard. The handcuffed negro was taken to the rear of the kitchen and while the others were eating, calmly walked out of the back door and has not been seen since that time. He was handcuffed at the time he made his escape.

Bought Hardware Store.

T. C. Perry, a prominent business man of Midlothian, has bought the hardware store of Horn & Moore and will continue in the same line of business at the old stand on Tenth street. Mr. and Mrs. Perry have already moved to city and are now making their home at 1507 West Maplewood, in Jester Place.

For County Superintendent. The formal announcement of D. D. Hanks for the office of County Superintendent of Schools appears in today's paper.

Prof. Hanks is a young man and has taught school eleven years, the last seven of which he has been principal at Powell. He studied at San Marcos State Teacher's College and has a permanent certificate.

He and his friends feel that he is thoroughly qualified for the position which he seeks and that his experience in the rural as well as graded schools of the county place him in a position to know their needs. Mr. Hanks promises, if elected, to do his very best for the interest of all schools in the county and to run the office in the most economical and efficient manner possible.

He was in the army during the world war and spent fourteen months in France.

## CHAIRMAN HOUSE WAYS AND MEANS COMMITTEE TALKS

SCORES SENATE'S ACTION ON  
TAX BILL AS "ECONOMIC  
FOLLY"

By Associated Press.

Washington, Feb. 15.—The problem of revising the tax reduction bill so as to meet the approval of the house, senate and treasury today confronted the conferees appointed by the two chambers to straighten out the points of difference.

As passed by the senate the bill provides for a reduction amounting to a total of \$466,261,000 or more than \$125,000,000 in excess of that voted by the house, and about \$100,000 more than Secretary of the Treasury Mellon believes the condition of the treasury will permit this year.

Washington, Feb. 15.—The additional tax reduction voted by the senate was assailed as "economic folly" by Chairman Green of the House Ways and Means Committee Sunday, on the eve of the meeting of senate and house conferees to adjust differences in the tax bill as it passed the two chambers.

In going \$126,000,000 beyond the total collection approved by the house in its \$330,000,000 bill, Mr. Green, who will head the house conferees, declares the senate not only threatened a treasury deficit, but jeopardized the enactment of many pending bills calling for increased government expenditures, including the public buildings bill.

While the Senate bill would cut taxes by \$466,261,000 this year, on the basis of calculations made by government actuaries, Chairman Green declared that after this year, when it would become fully effective, it would result in a total annual reduction of \$600,000,000.

"No account its taken," said Mr. Green, referring to the estimate for reductions this year, "of the repeal of the inheritance tax, and on \$68,500,000 is estimated as the loss on the capital stock tax, which loss will be at least \$25,000,000 larger for the following years. When the law goes into full effect, as it will in a few years, and all of the inheritance tax is lost, about \$135,000,000 will have to be added on account of these two items, making the total reductions nearly \$600,000,000. This is not a matter of discussion or argument, but merely of addition and subtraction. It will be the duty of the conferees to bring this amount within the limits of our national revenues."

The formal announcement of D. D. Hanks for the office of County Superintendent of Schools appears in today's paper.

## PAST YEAR BROKE RECORD IN INDUSTRY IN UNITED STATES

SURVEY OF FEDERAL RESERVE BOARD OF BUSINESS CONDITIONS

By Associated Press.

Washington, Feb. 12.—The year 1925 stands as a record breaker from the standpoint of industrial production, the Federal Reserve Board declared today in its periodic survey of business conditions.

Trade and industrial activity generally, the board said, were in considerably larger volume than in the year 1924 and production as a whole was in larger volume than in any previous year.

ABRAHAM LINCOLN GROWS.

Abraham Lincoln grows in stature with time. Though nearly three score years have elapsed since his death, his character is still the object of intense scrutiny to discover, if possible, how one of the environment of his early life and little schooling could rise to such estate. It might be thought that everything possible had been written, so voluminous is the literature concerning him, yet new works touching on various phases of his life are appearing constantly. The world is eager for greater knowledge of him and will not be satisfied.

That Lincoln holds such a firm place in the hearts of men is due to the fact that he never ceased to be one of the common people. With the overpowering responsibilities of guiding the nation through a fratricidal war he remained approachable by anyone who had a rightful call on his time. He never lost his sympathetic disposition. Abraham Lincoln possessed a rare mind, but it is the greatness of his heart that endears him to those who peer into his life.

That one of such lowly birth and meager training could so develop is proof of the soundness of democracy. He had no proud background of forbears to transmit to him the sense of being born to rule, yet in his achievements he received the acclaim of the world's elect. While recognizing his ability to see far more clearly than his trusted advisers, it is absence of envy and jealousy in his disposition, his sympathy and his great heart that caused Abraham Lincoln to grow in the esteem of men. Those God-given traits that set him apart cause appreciation of him to increase as the years pass.

### THE CIGARETTIST.

The cigarette's tribe is a prolific one. Today six times as many fags are going up in smoke in the United States as a dozen years ago. To be specific, eighty billion of them were smoked in the last year. That's 800 cigarettes for every man, woman and child in the country, although that is not how they are divided, this being only a republic, not a communistic state. The figures are based on tax receipts of the U. S. treasury department.

Business statisticians and economists will see in these figures confirmation of their belief that business in the United States is inherently sound. When times are hard and the average man has little change in his pocket he spends less on luxuries like cigarettes. That is why cigarette sales are a more accurate barometer of the country's prosperity than any other statistics more commonly regarded as such.

### PROMISE OR MENACE?

The head of a great American chemical manufacturing concern predicts the end of all disease in fifty years. He included the dread cancer within the scope of his prophecy, which he bases on the progress now being made in chemical science.

The prediction does not come within the realm of the impossible. In fact, many unversed in chemistry or medicine have long been confident that mankind would soon conquer the last of its disease enemies. This confidence has been strengthened and rewarded by the progress made in the battle against tuberculosis and the virtual elimination of disease epidemics in the United States.

Chemicals have long been em-

played effectively in the destruction of the enemies of vegetable life. Why should they not be as effective against the germs which prey upon human life? Already chemistry and surgery have made great headway against disease.

But what will it avail chemical science if it frees humanity from the menace of disease only to destroy humanity with poison gases, devastating explosives and other fiendish munitions of war? Some of the very chemical formulas devised to rid mankind of its invisible enemy—disease—are more invisible and a thousand times more deadly to man than the germs for the eradication of which they are intended.

Upon chemistry is civilization dependent in great part for its future happiness and welfare. Chemical research must not be interrupted nor restricted. There is no menace to man in the advance of chemical science. The menace is the use to which man puts his chemical knowledge. The world must see to it that this knowledge is employed for the protection of man not for his destruction.

### MISERLINESS NOT THRIFT.

The definition of a thrifty man, submitted by the branch of the government service which has to do with the promotion of saving, as one whose expenditures and accumulations lie somewhere between those of the spendthrift and those of the "tightwad," is simply another way of emphasizing that the maxim "Avoid extremes"—a favorite with wise men from the earliest times—applies to thrift as well as to other things. More specifically, the government classifies as thrifty the person who saves 20 cents of every dollar, spends 50 cents on living expenses, and 10 cents each for education, giving and recreation; designates as a "tightwad" one who saves 60 cents, spends 37 cents on living, and one cent each for the other purposes, and counts as a spendthrift one who saves nothing, spends 58 cents on living, 40 cents on recreation, and one cent each on the other things.

Yet there is at times danger of cutting down expenditures to a point where prosperity will be jeopardized. Buyers' strikes, while occasionally useful in bringing down exorbitant prices, are full of potential mischief. If all were "tightwads" and refused to buy more than the necessities of life, industry would be ruined, there would be hard times, and the very ones who confused miserliness with thrift would be injured by their own lack of judgment. When the "tightwad" quits spending, he lessens demand for and so curtails production of the things made by other men; their buying power is accordingly impaired, they reduce their purchases of the "tightwad's" products, and so his earnings are adversely affected.

Normal buying, moderate saving, help business and promote the welfare of the greatest number. And thrift, if it is to be a worthy virtue, must be so practiced that the good of the individual shall not be at the expense of the community, but in such a manner that all will benefit from it.

### WOMEN IN BUSINESS

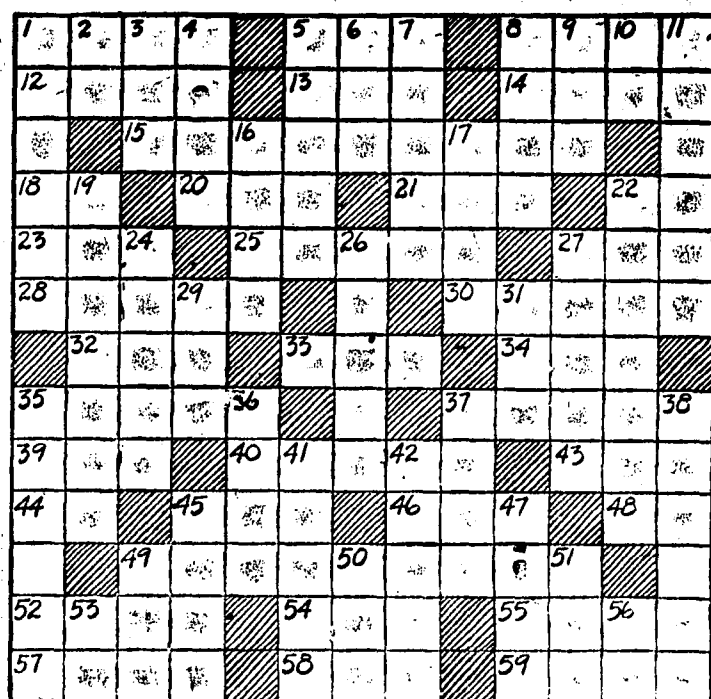

Women have for long been so firmly established in the business world as to be taken for granted in it, but their success had not been supposed so conspicuous as to surpass that of men in chosen occupations. On the authority of a mid-western executive, they have much more than arrived in business. Accordingly they will force recognition in that field if it is not given them.

Of all competitions in life, business is undoubtedly the most severe. There can be no mercy extended the weakling. The day's work must be done and well done, or the organization as a whole suffers; no business institution can tolerate a lowering of the standard. Far from it, for standards everywhere are being elevated. Favoritism cannot keep inefficiency in a job however much it may have had to do when placing inexperience in the office originally. Places can be held only through hard work and close application.

So it is that if the women are not only holding positions but setting the pace to the competition of the so-called sterner sex, they are doing it on merit alone. Memory of people young in business can recall the reluctance with which women were once received in general workaday life. They were tolerated rather than welcomed and were entrusted with minor detail work only. They won

## PALE, NERVOUS

West Virginia Lady Says That She Was in a Serious Condition, But Is Stronger After Taking Cardui.

Huntington, W. Va.—"I was in a very weak and run-down condition—in fact, was in a serious condition," says Mrs. Fannie C. Bloss, of 1964 Madison Avenue, this city. "In my left side the pain was very severe. It would start in my back and sides. Part of the time I was in bed and when up I didn't feel like doing anything or going anywhere."

"Life wasn't any pleasure. I was very pale. I was nervous and thin, and so tired all the time. "My druggist told me that Cardui was a good tonic for women and I bought a couple of bottles. I took two bottles, then I noticed an improvement. I kept on and found it was helping me. I have taken nine bottles. I'm stronger now than I have been in a long time."

Cardui is made from mild-acting medicinal herbs with a gentle, tonic, strengthening effect upon certain female organs and upon the system in general.

By Associated Press.

Geneva, Feb. 12.—The League of Nations Council at its special session today convoked an extraordinary league assembly for March 8th to act on Germany's application for membership.

By Associated Press.

Geneva, Feb. 12.—France will insist that the disarmament preparatory commission shall meet in a place which will insure the participation of soviet Russia, newspaper men were told today by the French ambassador here prior to the opening of the special session of the League of Nations Council.

Russia, angered over the assassination of the soviet envoy at Lausanne, in 1923, has refused to attend any meetings on Swiss soil.

Washington, Feb. 12.—Minister Gibson at Geneva has been ordered home to confer on the questions pertaining to the preliminary League of Nations disarmament conference.

It was thought advisable, since the conference has been postponed, to let Gibson exchange first hand information with officials here.

It is believed he can throw light particularly on the disarmament policies of the various other governments who are to be parties to the discussion.

## FORMER CORSICANA SUPERINTENDENT OF SCHOOLS WRITES SUN

### GREATLY ENJOYED RADIO PROGRAM BY CORSICANA MUSICIANS

The following very interesting letter has been received by the Sun from a former very popular man and educator of this city. Prof. Blair was for a number of years superintendent of the Corsicana public schools and is now a member of the faculty of the North Texas State Teachers College at Denton. Prof. Blair's letter follows:

Denton, Texas, Feb. 13, 1926. The Daily Sun,

Corsicana, Texas.  
Dear Sirs:—My family, including Misses Jac and Inez King, very greatly enjoyed the radio concert given by Miss Mabel Bush, Miss William Hamilton, Miss Adele Sutton, and Mr. Roy Leeds, on last evening, at station WRR, Dallas.

It carried us back to pleasant recollections of many delightful musical entertainments enjoyed in Corsicana in other days. Few cities of her size have so much and such varied musical talent. I think it is largely due to some leaders who have appreciated music, and have done much to develop live appreciation upon the part of the general public. The recognition of music by the public schools may have some share in the general and widespread interest in good music.

In this connection, Mrs. Louise Pace King, Mrs. Dockum, Prof. Shaw (deceased), Miss Hazel Cobb, and others deserve special mention. Perhaps some of my friends who read the Daily Sun may be interested to know that the entire Blair family are perfectly well, prosperous and happy.

We are enjoying our new home and new work, but still have a very warm place in our hearts for the many good friends who were kind to us while we lived in your good city.

Judge Meier is not a well man yet by any means and plainly shows the effects of the ravages of the flu.

There were two cases of intoxication, five speeders, one vagrancy charge, two charges of associating with a prostitute and four violations of the traffic signal ordinance. Several of these cases had been brought over from other days, not all of the offenses occurring since Saturday.

## LARGE FRUIT CROP IS PREDICTED THIS SECTION OF STATE

According to the prophecy of Capt. Walter T. Brassell, this section of Texas is destined to reveal in the production of a big and bumper crop of fruit this year. Mr. Brassell, who is a close observer of the weather and the conditions resulting therefrom, states that February 14th, is ground hog day, and also further states that the direction of the wind on that day has complete control over the fruit crop.

His contention, backed by years of close observation, is that if the wind blows from the north on February 14th, there will be a full crop of fruit and that if it blows from the south on that day there will be a fruit crop failure. The wind blew from the north practically all day Sunday, February 14 and none at all from the south, hence the prediction of a big fruit crop.

## JESUS THE GOOD SHEPHERD

John 10:1-5, 11-16.

1. Verily, verily I say unto you, I that entereth not by the door into the sheepfold, but climbeth up some other way, the same is a thief and a robber.

2. But he that entereth in by the door is the shepherd of the sheep.

3. To him the porter openeth; and the sheep hear his voice; and he calleth his own sheep by name, and leadeth them out.

4. And when he putteth forth his own sheep, he goeth before them, and the sheep follow him: for they know his voice.

5. And a stranger will they not follow, but will flee from him: for they know not the voice of strangers.

11. I am the good shepherd: the good shepherd giveth his life for the sheep.

12. He that is an hireling, and not the shepherd, whose own the sheep are not, seeth the wolf coming, and leaveth the sheep, and fleeth, and the wolf catcheth them, and scattereth the sheep.

13. The hireling fleeth, because he is an hireling, and careth not for the sheep.

14. I am the good shepherd, and know my sheep, and am known of mine.

15. As the Father knoweth me, even so know I the Father; and I lay down my life for the sheep.

36. And other sheep I have, which are not of this fold: them also I must bring, and they shall hear my voice; and there shall be one fold, and one shepherd.

The Golden Text—"I am the good shepherd: the good shepherd layeth down his life for the sheep."—John 10:11.

Touring in an automobile not long ago through the wide prairies of Western Kansas, and Eastern Colorado and into the Rocky Mountains, I began to believe in signs. Our way was marked and for the most part lay straight ahead. At every turn were sign boards and arrows pointing the way. It was almost impossible to get lost.

Many times the sign boards turned us to the north, then to the west through a small city and then again to the south where we again struck the main highway after driving at least a mile out of our way. Had we known the road we could have driven straight ahead and saved, not only the miles, but the expense of rough streets.

Then this thought came to me. The ways we travel in our journey for the few years we live are often made more difficult and the roads rougher by denominational detours. Trying to find God we turn aside at a sign board and find that it is a Presbyterian detour, or a Methodist detour, or a Baptist detour.

## TEXANS INTERESTED IN STATE HIGHWAY BUILDING PROGRAM

Special to the Sun.

Austin, Texas, Feb. 13.—That Texas citizenship is interested in state highway development, is generally conceded. The semi-monthly attendance of representative citizenship of the state, at the State Highway Commission hearings, Austin, is conclusive evidence that the whole of the state is vitally interested in highways, and the need of every locality in the state for them.

At these stated meetings, when the State Highway Commission holds official hearings of the matters pertaining to state highway needs, news and meetings are brought in from every section of the state. Men who appreciate the worth of improved highways, are sent to represent their counties and districts in the matter of highway development. These representative citizens use their time, money and interests in coming to State Highway Department to promote highway development.

It is this concerted interest and action that has brought about the system of state highways that is the beginning of a gigantic state-wide development campaign. Development of every natural state resource, furthering of every state industry, and promoting immense schemes for water conservation and water power plants in Texas.

Big colonization projects are in formation with inquiry concerning these coming from many states and sections. It would seem from the outlook at hand that Texas stands at the very threshold of development of so great an import as to overwhelm the most sanguine. With state highways penetrating every county, every locality, the opportunity was never greater for achievement of the things that stand monumental.

Caminero Real, Ancient Texas Road—Centuries ago in Texas there was the Caminero Real, ancient road that traversed Texas, entering from the Louisiana border. The trail blazed by the footsteps of races of men who have left to us their influence. The silent tread of the moccasined feet, long before the Chevalier St. Dennis came over it in 1715, beat over the way that followed to watersheds between the rivers and crossed the streams above tide water. The beginning of the system

or another of the nearly 200 denominational detours. Those who placed these denominational signs were just as sincere and just as honest as possible. To them the city off at one side was home and they not only wanted everybody to go the right way but were very sure that theirs was the right way. They, nowadays, do not denounce other denominations, even admit that they are good enough. At theirs is certainly the best. At theirs, however, soon discovers that all these ways ultimately rejoin the main highway and all lead on toward the mountains of desire.

In a beautiful little allegory Jesus taught this great truth and pointed out The Way. He was walking one day with his disciples through the countryside when he came to a sheep fold. It was an enclosure surrounded and protected by a strong fence of thorns. At the one place was an opening. There were many such through Palestine at that time: raising sheep was one of the main industries and shepherds were honored and their duties well known. Jesus pointed out the sheep fold. He told of the shepherd who was himself the gate. There was no shutter for the gate into the fold and there the shepherd stood, himself the gate. Jesus said:

"I am the Good Shepherd and I know mine own and mine own know me." \* \* \* and I lay down my life for the sheep."

The illustration would not have been a good one had Jesus and his disciples been walking along in our western cattle country where sheep are despised and He would not have used it. But in Palestine, at that time it was a perfect illustration of himself and his work.

It brought strikingly to the minds of his disciples the exact thing he wanted to bring. Just then the Jewish high priests and rulers were counciling Jesus. They claimed the only way to God was through the regularly organized orthodox Jewish church. That the only way to God was to become a Jew if you were not one, submit to circumcision, pay the necessary fees, pass through the ceremonies of ritualistic purification and come out saved. This was a way marked by many sign boards. Jesus pointed out a better way, the direct and simple way, to God, a way which any one may travel. His life here was for the purpose of pointing out that way.

The Way of Life which he points out to us so clearly is not always the way we want to go. It means a law-abiding life, it means an unselfish life, it means a life of work and endeavor, devoted always for the helping, the uplifting of others. It means that our contact with other men shall not be for our own

holds for the present, history followed by the ages, and the lives of the men who blazed the way have left behind footprints that we treasure.

Caminero Real follows today state highway No. 21 through Sabine, San Augustine, Nacogdoches, Cherokee, and Houston counties. From the border of Houston county to Caldwell in Burleson county it is not a designated highway. From Caldwell to Giddings in Lee county, it follows state highway No. 21. It is traced on from Bastrop, and for fifteen miles west the route follows state highway No. 3-A and from San Marcos to San Antonio it follows state highway No. 2, going from San Antonio to the Rio Grande, passing through Bexar, El Paso, Dimmit and Maverick counties.

Caminero Real at first was the Indian trail used for the inter-tribal barter and intercourse and maybe warfare. Later with the coming of the Spaniards it was used as a pack trail with mules for the transport of goods, and with the coming of the American settlers, Caminero Real was used for the ox wagon, later the mule team and today the motorists travel over the historic route in keeping with the development of the time. Like the ancient "Appian Way," it connects the past with the present, illustrating that highways mean civilization and progress and development.

El Paso to Marshall and Louisiana Border—Across the whole of the state from West to East is one of the splendid inter-state highways in Texas. Over highway No. 1 direct from the great west section of the state into Dallas the great metropolis of the north section, this highway leads, and thence over highway No. 15 into Marshall and the border. Each town and county approximately a thousand miles, holds something of earthy interest to the motorist. It is a magnificent stretch of modern highway through Texas, where there is to be gathered both flowers and inspiration, and where there is much of the stuff from which ambition is created, and lasting impressions gathered.

For County Treasurer.

In today's paper will be found the formal announcement of Frank Mitchell for County Treasurer. Mr. Mitchell has lived in Navarro county for many years and is well and favorably known. He worked for 22 years in one barber shop and has followed that trade most of the time he has been in Corsicana.

Seven years ago he had the misfortune of losing one leg and of

selfish benefit, but for the joy and pleasure and the welfare of those with whom we are thrown. And, curious enough though, many may dispute this. His way is the most joyous, the most happy and the way which pays the biggest dividends.

Most of us are speed-sick. We are not willing to obey the laws of the way, we are unwilling to put ourselves out for others, we want to pass everybody else on the road, do as we please and call it the way. On this same trip I mentioned just now, we came to a big fine car lying across the ditch at the side of the road, the front wheels were in the adjoining field and a dead man had been lifted out of the wreck. He was unwilling to follow the safe way and his life was snuffed out.

I do not like to preach at people, I do not like to be disagreeable, it seems useless to try to stem the tide of indulgence and reckless display. I think of a thing sacred which flaunts itself at us who may live in or near the large cities but at the risk of losing your interest and attention I am old fashioned enough to point out the great sign of the road, the sign which Jesus left for our guidance, the Way of Life he pointed out and which he makes so clear in this parable of the Good Shepherd.

There is a wonderful promise in this parable. Jesus said, "I know mine own." Among the seventeen hundred millions of human beings on this earth of ours I am lost as an individual. I like to think that God knows my name, that He knows where I live and what I am doing, and that He can call me by name. One of us and direct our destinies. The shepherd in Palestine knew every sheep in his flock, called them by name and it was considered a remarkable thing. Yet Jesus said that he knew each one of us by name.

Then there is another promise. He not only knows me and you and our children and our friends by name, He is ready to lay down His own life for us if necessary. That is what He said in this parable and is studying it, it is not an idle gesture, that is exactly what He did.

Jesus pointed us the Way of Christianity. It has proven joy and glory for millions of men and women who have lived and died in the Christian faith and is ours today if we want to follow it.

"To every man there cometh a Way and a High Soul and a Way. And the High Soul climbs the High Way. And in the end of the misty state And in the end of the misty state But to every man there cometh A High Way and a Low. And every man decideth. And the High Soul shall go."

THE REPUBLICAN SYNDICATE.

recent years his health has been so that he has not been able to do the work of his profession, as he has in the past.

He and his friends feel that he is thoroughly qualified to hold the position of county treasurer, and that he elected he will do his best to make an efficient public official. Courtesy is a natural trait of Mr. Mitchell and he says if the people favor him with the office they will always find him willing and ready to serve.

## PLAN FOR INCREASED PRODUCTION COTTON EXPLAINED FRIDAY

VICTOR H. SCHOFFELMAYER SPOKE AT NAVARRO COUNTY COURT HOUSE

The Dallas News and Dallas Semi-Weekly Farm News "More Cotton on Fewer Acres" State-wide contest was explained in detail by Victor H. Schoffelmayer, agricultural editor for those publications, in a talk to a number of Navarro county farmers and business men at the county court room of the court house Friday afternoon. He was introduced by F. N. Drane, Attorney at Law, and by Mr. Drane were J. M. Dyer, Sr., president of the Corsicana Chamber of Commerce; H. Gentry, county farm demonstration agent; Roy Christman, secretary-manager of the Corsicana Chamber of Commerce.

Mr. Schoffelmayer expressed regret at no bankers being in attendance for his subject was of vital interest to bankers as it is farmers and merchants. He told of the contest being put on by the papers which started two years ago. He reviewed the history of the contest, and said John McFarlane of Smith county was crowned Cotton King when he raised two bales per acre on five acres. Fred Littleton of Wilbarger county the same year raised almost the same amount as McFarlane on five acres. That was year before last and these two were the only ones to attempt to get the prize of \$1,000, paid by the Dallas News and Semi-Weekly Farm News.

Last year, however, Gene Adams of Smith county raised over three bales of cotton per acre on a hillside plot of five acres.

During the past year 4,400 farmers in Texas entered and competed in the contest. The grand prize has been raised to \$1,500 for this year. All cotton to enter the contest must be at least one inch staple, or better, and can be grown from various varieties of seed.

Last year's crop, it was explained, had 2,000,000 bales of short inferior staple held over to be charged against the farmers on the new crop. The contest is to bring about a better staple, and to cut down cotton acreage, he said. The short staple cotton now being raised to a large extent in Texas came after the boll weevils struck Texas about 25 years ago. The boll weevil has not been killed, although \$50,000 has long since been offered for a way to exterminate the weevil. Following the boll weevil ravages, it was said, farmers were induced to plant an early maturing cotton, and many varieties of short cotton were introduced in order to beat the boll weevil.

The plan of the contest is to get longer staple varieties of cotton where it will command a much higher price. Texas cotton, it was said, formerly had the best staple of any cotton-growing section and 55 percent of it is shipped to England for spinning. English mills were built to fit longer staple of ex-cotton in the earlier days and that is the reason the short cotton today does not command a better price.

A total of 18,237,000 acres were planted to cotton in 1925, which raised an average of 16 1-2 pounds of lint per acre, which is the second lowest average for any year heretofore. Texas averaged one-half bale of cotton to the acre last year, and of 10,000 farms in the South an average of 15 pounds lint cotton was produced.

Mr. Schoffelmayer explained the Dallas News was promoting the cotton growing contest because it is the most important crop in the state. Of the 4,400 farmers entering the contest last year, 168 counties were represented. The farm bulletin will be out about March 1, which will explain the contest, and the amount of acreage yields. He stated that Smith county had entered upon a ten year program of cotton raising, in that county last year twenty-eight white and ten negro farmers grew as much cotton per acre as was grown by McFarlane the previous year. He declared that the winners this year may exceed the record made by Adams last year.

It was explained that not only does the News desire to cut down the acreage of cotton, and grow the same amount gross yield on one-fourth or less the amount of acreage, but to raise the quality of the product. This leaves more land free for hay, oats, corn, garden crops, and the raising of hogs, and increase in dairy farming, poultry and poultry products.

"The cotton growing contest was first conceived," Mr. Schoffelmayer said, when a plumber quit his trade in Tyler and went on the farm for his health. This plumber took up an old farm that was put in cultivation seventy years ago, and had been worn out forty years and had ceased to be cultivated because the land was impoverished. The first thing the man did was to terrace up the land which consisted of sixty acres, and planted certain restorative crops, and devoted 15 acres to cotton. On this fifteen acres there were gathered eight bales of cotton. From this experience from a man who had never worked or lived on a farm, the contest idea was conceived. This woke the business men and bankers of Tyler up, and since then all have policed hands in cotton raising. Mr. Schoffelmayer said.

The speaker advised local business men and farmers to make up a caravan of automobiles and visit the Smith county cotton growers and see the farms of McFarlane and Adams and others who have inaugurated the intensified plan. In this connection, it was pointed out that 100 men went from Green-

ville, in Hunt county, to see these farms this week. In order that their ideas might be improved in big cotton yield.

The Dallas News is offering prize money in another contest. This is an irrigation contest. The speaker mentioned that many farms can utilize small streams and branches that touch them by throwing up mud and plank dams and plant the five acres of cotton near enough that it can be watered in dry weather.

The News is also working out a plan whereby \$1,000 will be paid the county making the highest crop record in the state, to be used in making local prizes for agricultural yields.

Mr. Schoffelmayer spoke on the Dallas News demonstration farm at Dallas, where experiments are being made for bringing forth valuable information to the farming interests.

He urged the farmers of Navarro county to enter the cotton-growing contest and enter upon a five or ten year program.

## STATE OBSERVES ANNIVERSARY BIRTH ABRAHAM LINCOLN

Special to the Sun.

February 12, is Abraham Lincoln's birthday.

Abraham Lincoln was the sixteenth president of the United States.

Born in a pioneer log cabin near Hodgenville, Ky., Abraham Lincoln as a boy moved with his father to Indiana, later taking up residence in Sangamon county, Illinois.

In Illinois he lived through his early manhood and was living in Springfield till the time of his election to the presidency in 1860. The Lincoln tomb is in Oakwood cemetery at Springfield, and the Lincoln home is still standing. Lincoln was the son of Thomas and Nancy Hanks Lincoln. Left motherless at an early age, Lincoln grew up with very little education, except that he was able to learn for himself from borrowed books.

The sturdy Lincoln, backwoods boy, trail-splitter, grocery clerk and boatman on the Ohio river, worked hard at his first jobs for eight dollars a month, his biographers have it, until later he took up the practice of law. He first became famous during the presidential campaign in 1860 in the Lincoln-Douglas debates that shook the political arena of the country from one boundary to the other.

Lincoln was born February 12, 1809, and died April 14, 1865, just at the close of the Civil War. He died from a pistol shot wound in the back of the head, inflicted by John Wilkes Booth, an actor, who shot Lincoln while he was watching an evening performance at Ford's Theatre in Washington, D. C.

Lincoln's birthday is a National holiday. Banks close on that date each year, and government business is curtailed in observance of the birth of the Emancipator.

## COURT OF HONOR FOR BOY SCOUTS AT FIRST CHRISTIAN

### INTERESTING CEREMONY CARRIED OUT WITH MANY SCOUTS PRESENT

Last night at the First Christian church 105 Scouts, representing six troops of Boy Scouts, met to attend the Court of Honor.

The Court was opened with a prayer by Rev. Paul J. Merrill, pastor of that church. R. M. Tilley presented 85 certificates to Scouts who had advanced in Scoutcraft. As he received his certificate, he was congratulated by Mr. Tilley, chairman of the Court of Honor, on his splendid work and urged to go on up the ladder to the highest rank of Scouting, the Eagle Rank.

Mr. Tilley explained to the assembly that it required the personal signatures of three men on each certificate but that he considered at a genuine pleasure to have the honor of doing his bit and that at the next Court of Honor, which will be held in April, he hoped that he would have to sign many more than this time, with a few Eagle certificates on the side.

After the presentation of the certificates, the Scouts enjoyed stunts given by the various troops. Troop Seven gave a signaling stunt. Troop One a comic stunt about the automobile salesman demonstrating his car.

J. H. Bryant, chairman of the advancement committee for Troop S, conducted a tenderfoot quiz. Representatives from each troop were sent forward to compete in a Tenderfoot question spell-down. All of the Scouts held their place in line until questions were asked regarding the flag of the United States and most of the Scouts lost their place on the question of dates. After 50 questions were asked there were seven still standing.

Messrs. Haslam, Todd and Martin acted as judges for the contests that followed, which were "Tenderfoot Baby Contest," each entrant given a bottle with a nipple, full of milk to empty. The six Scouts who entered were very much surprised when the packages were opened, but all of them took the joke and started on the long task of emptying the bottle. Scout Edwin McClanahan was the winner of this stunt.

Other stunts were feats such as running broad grin, laughing contest, talk fast, running high whistle, and other stunts.

The Scouts joined in the merriest whole-hearted and a good time was had by all.

Pive Scoutmasters and two assistants were present.

Only a small number of the parents were present, which was due

to the musical program at the high school, but it is hoped that in the future the Scout Courts of Honor will be well attended by the public especially the parents of Scouts.

The boys talked about the Scout garden to be started Wednesday afternoon, and about fifteen Scouts promised to help get the ground ready for planting. This will be open to all boys and will be under the direction of Miss Elma Layson, home demonstration agent, and H. Gentry, county agent.

After a few brief announcements the Scouts stood and repeated the Scout oath in unison and the meeting was adjourned.

## TOOLS AGAIN PUT IN HOLE OF ENNIS WATER SUPPLY WELL

The tools went back into the Ennis water well Friday and the casing is being cleaned out rapidly, according to scouts who returned here Friday night from Ennis, where they had been watching the operation.

Schubert & Scott, drilling contractors, have charge of the well, and the water will be tested out within a very short time. Casing is on the ground and no delay is anticipated in getting the test completed.

## COLDEST WEATHER IN HISTORY TODAY 27 YEARS AGO

## FORMER GEORGIAN SAYS FEBRUARY 14 GROUND HOG DAY

WALTER T. BRASSELL ALSO  
MAKES PROPHECY ON  
FRUIT CROP

To the average native Texan February 2 is considered "Ground Hog" day, and if the little animal is able to see his shadow on that day he scampers back and the humans who inhabit the earth expect six weeks more of bad weather before spring opens, and go about their business accordingly. And if he fails to see his shadow they claim that spring is at hand and they also go about their business and forget the ground hog.

But now comes Capt. W. T. Braswell, native of Georgia, but a long time Texan by choice, who states that he has observed for many years that the wind blows from the north on February 14, which comes on Sunday, is ground hog day in Georgia, Tennessee and Kentucky. It has always been merely Good Saint Valentine's Day in Texas, but Capt. Braswell says that any native of Georgia, Tennessee or Kentucky that has reached the age of 75 years will tell you that Feb. 14 is ground hog day.

Another thing Capt. Braswell states that he has observed for many years that if the wind blows from the north on February 14, that there will be an abundant fruit crop, and that if the wind blows from the south on that day there will be a fruit crop failure. If the wind should blow from the north part of the day and from the south for the remainder, or vice versa, there will be only part of a full fruit crop. He states that this is a fact that he has observed for many years and has never seen it fail.

### In Memoriam.

Written in memory of our son and brother, Homer L. Lamb, who was born on May 18, 1903, near Frost, Navarro county, Texas, and died Feb. 5, 1926. He was employed by the Simmons Oil Co. at Dallas, Texas. He had gone to work at 7 o'clock Friday morning when he was overcome by gas fumes and then drowned in a tank car of gasoline and death was instantaneous. He had formerly been employed by the Magnolia Oil Co. at Corsicana, where many of his friends live. Relatives and friends had never dreamed that death was so near. He is survived by his mother and father, Mr. and Mrs. J. R. Lamb, Mrs. O. R. Tanner, Coleman Lamb, myself and Louise Lamb, all of Dawson.

Homer was a member of the Missionary Baptist church at Dawson, joining there in 1922. His funeral was conducted by the Rev. Mr. Howell of Corsicana and the Rev. Mr. Etheridge of Milford, in the Baptist church at Frost on Feb. 6, at 3 p. m.

There was a large crowd of sorrowing friends and many beautiful flowers were placed on his grave to show the love his friends had for him.

We don't believe there was ever a sadder death or greater shock than when this sad news was received. We know that the old must soon pass away, but it seems that when one is young and full of vigor that we can't realize that without a moment's warning, that they must pass from this world to try the realities of the Great Beyond. He was just blooming into manhood, was just 23 years, 8 months and 18 days old, and it seemed to us that a long and useful life was before him, but alas, he is gone, but we trust to a far better place than this and that today he is at rest and is awaiting for the time when the grave's will give up their dead bodies, and the spirit will return to the God who gave it and the body will put on immortality and body and spirit will then be united and will ever praise the Lord Jesus Christ, who gave His life to ransom our friend and all others who will accept Him as their Savior as he did.

Close to the side of my Savior divine, Letting Him lead me along, Wonderful gladness and sunshine is mine, Always my soul has a song, Life is so pleasant when Jesus is near.

Bright is the light of His smile, Trusting completely in Him I can hear, Whispers of love all the while, He will uphold me till Heaven I see.

Keep me His own by His grace; In His presence I always shall be, Bright with the light of His face, His body was laid to rest in the beautiful cemetery at Frost. Tender sympathies are extended to the bereaved.

Our loved one has passed away, To that bright sinless world above, A Christian life he lived while here, He trusts in the Savior's love, He now has crossed the chivalry tide, Into the realms of pure delight, And dwells with Christ in Heavenly home.

Where cometh no more shades of night, He's resting now within His care, With all the happy blood-washed throng, With saints and angels there to dwell, And ever praise the Lord in song, We hope one day to meet him there.

In yonder mansions bright above, And with him ever sing the praise, Of Jesus' great redeeming love, —BROTHER.

## ARCHER COUNTY IS ASKING REHEARING IN ROAD BOND CASE

JOHN W. DAVIS HAS ENTERED  
CASE FOR ATTORNEY  
GENERAL MOODY

By Associated Press. Washington, Feb. 12.—Attorney John Moore, counsel for Archer county, today asked the supreme court for a rehearing in that county's road bond case.

He had previously refused to ask for such a rehearing.

John W. Davis, Democratic candidate for president at the last election, also entered the case, representing Attorney General Moody.

He filed a petition for a rehearing.

Davis, in his petition, stated that large interests are adversely affected by the decision and that arguments had not been adequately presented in behalf of the road district.

SENATE STANDS PAT  
IN HUGE REDUCTION  
FEDERAL TAX BILL

By Associated Press. Washington, Feb. 13.—Standing pat for a reduction of nearly half a billion dollars in the annual tax budget, the senate passed the revenue measure last night by a vote of 68-19.

The \$126,000,000 cut which was made by the senate over the house bill must run the fire of the conference between the two houses, which will begin first of next week, with a view to final enactment of the measure in time to make the reduction effective with the filing of the first tax returns on March 15th.

The conferees are warned in advance by Secretary Mellon that the condition of the treasury will not permit of the \$456,000,000 reduction carried by the senate bill.

President Coolidge is confident the conference committee will bring the total net amount to the \$330,000,000 proposed by the house bill to permit him with safety to sign the measure.

By Associated Press. Washington, Feb. 13.—The senate late Friday passed the tax reduction bill providing a saving of \$456,000,000 in taxes this year to federal taxpayers, and sent it to conference for adjustment of differences with the house. The vote was 58 to 19.

Passage of the bill, which came suddenly and somewhat as a surprise even to senate leaders, is expected to assure benefits of the proposed tax cut in the payment of the first income tax installments March 15.

Senators opposing the bill were Messrs. Frazier of North Dakota, La Follette of Wisconsin, McMaster and Norbeck of South Dakota, Norris of Nebraska and Nye of North Dakota (Reps.), Shipstead (Farmer-Labor) of Minnesota and Reed of Missouri and Wheeler of Montana (Dems.).

Going far beyond the appointed hour for adjournment, the senate accepted all reductions voted by the house and, in addition, slashed taxes by another \$125,000,000.

The administration has declared the extent of reduction provided by the bill excessive, but confidence was expressed at the White House Friday that the measure as finally drafted by the conference committee would lower the total cuts to within limits acceptable to President Coolidge.

Not more than a week is expected to be taken by the conferees in reaching a compromise, after which the senate and house must ratify the agreement before the bill is sent to the White House for the signature of the President.

WORK RESUMED ON  
ENNIS WATER WELL

SCHUBERT & SCOTT

Schubert & Scott resumed work on the Ennis water well Friday. The boilers have been fired up and the tools are going back into the hole. The well is being cleaned out and casing set and the water tested, according to plans.

The well was drilled to 3,400 feet and shut down some time ago to wait the arrival of casing. The test is said to be in the Trinity sand and was put down by a contract with the city of Ennis for a water supply.

NEW CUMBERLAND  
MINISTER ARRIVES TO  
BEGIN PASTORATE

The Rev. O. D. Spence, formerly of Providence, Kentucky, new pastor of the Cumberland Presbyterian church of Corsicana, has arrived in the city and will inaugurate regular services in that church under his pastorate next Sunday morning. The Rev. Mr. Spence was for nine years pastor of the Cumberland Presbyterian church in Providence, Ky., and comes recommended as a minister and a Christian gentleman.

The Rev. Mr. Spence is married and has two boys, aged eleven and four years, and the family are now domiciled in the Cumberland Presbyterian manse at 715 West Seventh avenue, where they will be glad to have their friends call.

## TIGRESSES RALLIED TOO LATE TO DOWN POWELL SEXTETTE

POWELL CAGERS ASSUMED  
COMMANDING LEAD  
EARLY IN GAME

Saturday night before a fair-sized crowd of partisan fans from both Corsicana and Powell, the sextette representing Powell defeated the Corsicana Tigresses 10-8 in a hotly contested game played at the Corsicana Y. M. C. A. gymnasium at 6:30 o'clock. The game was as close as the score indicates.

Early in the game the Powell cagers assumed a commanding lead and although the Tigresses rallied late in the contest, the sterling defensive tactics of the opposition prevented them from tying the score. Powell clearly outplayed the Corsicana team during the majority of the game and deserved to win.

When the final whistle was sounded ending the game, the fans accompanying the Powell aggregation broke loose in a wild cheering demonstration.

Wright, forward of the Powell team, was the outstanding scorer of the game with a total of eight points. Six free tosses and a field goal was made by this star.

For Corsicana, T. Looney was the leading scorer with seven of the eight points of the locals. She tossed two field goals and three free goals.

Christian was a star on the defense for the visitors. She is a veteran player and was one of the main factors in the Powell victory.

## CHAIRMAN HIGHWAY COMMISSION VISITS NAVARRO COUNTY

INSPECTS ROADS IN NAVARRO  
COUNTY UNDER STATE  
MAINTENANCE

Hal Moseley, chairman of the Texas Highway Commission, who was in Navarro county Friday inspecting the maintenance of the State Highways, was the honor guest at a luncheon tendered by the Corsicana Chamber of Commerce at the Navarro Hotel at 1 o'clock. A number of local citizens were in attendance, including Joe Daniels of Kerens, J. M. Dyer, president of the Corsicana Chamber of Commerce, presided at the meeting.

In the beginning of his remarks Mr. Moseley declared that the Texas Highway Commission was sold on the idea of closing up the gaps in the State highways and referred to a highway from the Gulf to Oklahoma, Kansas and other states and urged that if Corsicana and Navarro county wished to be on this inter-state highway and that the Highway Commission was going to back those counties in closing up the gaps in the highways. He declared that the road system was like a chain, no stronger than its weakest link.

The Highway Commissioner stated that in the order carrying out the issue, it was necessary for all of its supporters to be in accord and that if it was thought that former issues in Navarro county were too large, he would suggest that the amount asked for be reduced and that he believed that it could be carried. He stated that he believed that the highway commission would aid the county.

The speaker referred to criticism of the highway commission in the apparent slowness of making the highways in certain counties of the State. He declared that in many instances it was better to go slowly as the foundations were more substantial portions of the country, the roadbed should be allowed to season for at least a couple of years before the pavement was made.

Commissioner Moseley announced that he had inspected the highways of Navarro county and outside of the small strip of road left the Pursley community which is only half wide enough, Navarro county does not have a first class road.

R. J. Jackson reviewed the bond issues and campaigns held during 1925.

J. M. Dyer declared that the road adherents believe that they can secure a system of good roads.

J. T. Portson stated that a system of cardinal highways, north and south and east and west might be constructed.

County Judge Warren, High stated that the keynote of the failure of the bond issues in 1925 was the fact that the citizens of the county were sold on the idea of a \$5,000,000 debt and that later it was raised to \$7,000,000. He stated that controversy about the Archer county road would not affect the county-wide system was voted. He stated that district No. 1 of the county was not affected and that according to the special road law for Navarro county, the commissioners' court has the right to create road districts. The speaker stated that the commissioners' court had a great deal of trouble with the getting of the road taxes in the wrong districts. He referred to several of the oil companies operating in the county refusing to pay their taxes as they did not wish to pay the road tax and the tax collector refused to take the money without all of it. Judge Hicks stated that all of the road districts of Navarro county with the exception of Road District No. 1, had a tax rate for the roads of 50c and higher. He stated that it was probable that the entire county-wide proposition could be financed on a 50c basis for an issue for \$3,000,000. He stated that all outstanding bonds of the county could be paid off and sufficient roads constructed in each direction. County Judge Hicks stated that in his opinion a \$3,000,000 proposition would meet the desires of the citizens of the county. He pledged the readiness of the commissioners' court to co-operate with the Highway Commission and the citizens in any progressive moves for the county.

He stated that a system of cardinal highways over the county would be a progressive move.

Joe Daniels of Kerens spoke briefly of an effort to secure a bridge crossing the Trinity river near Trinidad. He stated that it had been suggested that Navarro and Henderson counties aid in the construction of the bridge. A meeting of the Chamber of Commerce held Friday afternoon between interested citizens of Corsicana and Kerens relative to this proposition.

C. G. Jester, Jack Megarity, F. N. Drane, Lowry Martin and Roy Christian also spoke briefly. Mr. Christian stated that much of the work of the Chamber of Commerce this year would be based on the agricultural part of the work. He referred to the address Friday afternoon at the Navarro county courthouse. J. T. Portson stated that Navarro county needed more land and fruit as well as other features for the improving of the conditions of the county.

Among those present at the meeting were J. M. Dyer, Sr., Lowry Martin, F. N. Drane, E. C. Cox, Jack Megarity, C. G. Jester, Hal Moseley, R. J. Jackson, W. W. McClendon, P. B. McKie, W. Roy Christian, Joe Daniels, K. E. Ma-

son, J. S. Murchison, J. T. Portson, Reuben Neecer, Warren Hicks, Adam Cone, Palestine.

ASK DEATH PENALTY  
FOR SEVEN MEN IN  
TIA JUANA SUICIDES

By Associated Press. Tia Juana, Mexico, Feb. 15.—Information charging first degree murder were presented in Mexican federal court here at noon Sunday against the seven men held as a result of the "suicide" of the Thomas Petee family, following an alleged attack on Audrey and Clyde Petee in Tia Juana.

Seven men, the men accountable for the death of the family in San Diego, the informations charge them with having attacked the two girls.

At the same time Mexican officials made the first official announcement that the death penalty will be asked in case the men are found guilty of the murder count. The court has 72 hours in which to pass upon the informations and will then set a date for the trial.

Antonio Maria Martinez, secretary of state for the northern district of Lower California, said the prosecution will strive for a sentence placing the men before a firing squad.

The informations specifically charge Luis M. Amador, proprietor of the Oakland bar here, Refugio Alvarez, bar tender at the San Diego bar in Tia Juana; Francisco Navarro, taxi driver; Salvador Espinoza, taxi driver; and Juan Vark Sang, hotel owner, with attacks on Clyde Petee, Zenadio Llano, former chief of police of Tia Juana, and Francisco Gonzalez taxi driver, are specifically charged with having attacked Audrey Petee.

All seven are named in the murder charge.

The informations recite that Mrs. Carrie O. Petee and the two daughters met their deaths at the hands of the husband and father, Thomas M. Petee, from poisoning by gas; that responsibility for the deaths of the seven prisoners.

Investigations, Mexican officials said, showed that the Petee girls were attacked in automobiles on the way to a hot springs resort, 14 miles out of Tia Juana. As the machines were in the use of the entire party the accusations were laid against the entire seven instead of merely against Amador and Llano, as was done by the coroner's jury in San Diego.

Officials again intimated Sunday that the attack charge against Llano probably will be dropped as the result of information given the authorities by his physician. They were unwilling to say what effect this would have on the murder charge against Llano.

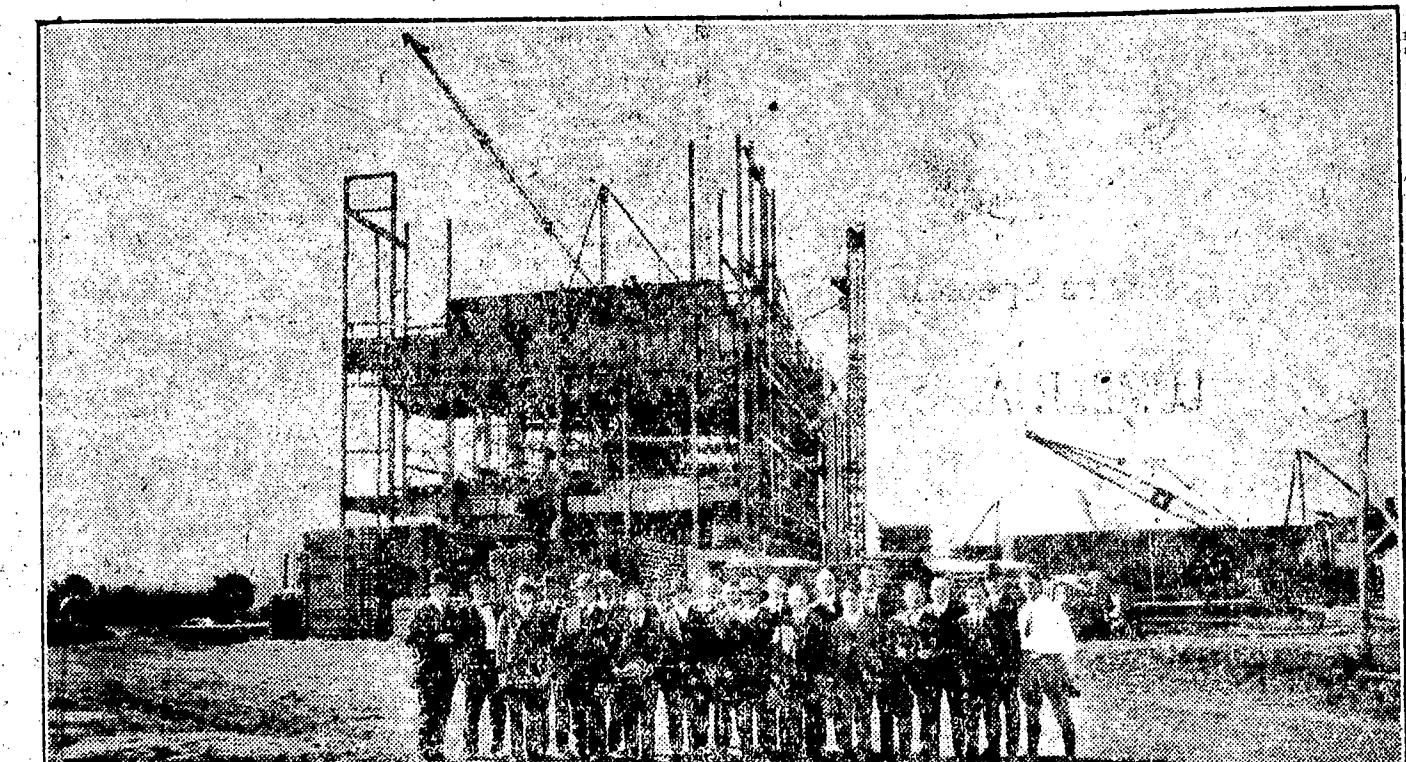

The decision to bring the murder charge against the seven was not reached until the last of the evidence had been taken. Previously it had been announced that the charges would be abduction and attack and that it was doubtful if the death penalty would be asked.

Tia Juana, Mexico, Feb. 15.—Governor Rodriguez of Lower California Sunday ordered all women entertainers and suspicious characters deported from Tia Juana. All saloons of Tia Juana will be placed under cash bond of \$10,000 each, it was announced, to insure adherence to regulations. It also was made known that a number of suspicious characters may be banished to the Tres Marias Islands in the Gulf of California.

J. J. Henriks, superintendent of the Kerens public schools, was a business visitor in Corsicana Saturday afternoon.

## CORSICANA MAN MARRIES ENNIS GIRL; WILL RESIDE HERE

James A. Clark, of Corsicana, and Miss Aubrey L. Schoeps, of Ennis, were married at the home of the bride's parents 405 North Kaufman street, Ennis, at 9 o'clock Sunday night. Rev. Edgar Parker, pastor of the First Baptist church, performed the ring ceremony. Mr. and Mrs. Clark left Sunday night to spend their honeymoon in San Antonio, Fort Worth and Dallas, after which they will be at home at 1812 Sycamore avenue, Corsicana.

Miss Bessie Mae Skinner at the piano gave Lohengrin's Bridal Chorus and accompanied Mrs. Cora F. Winter, who sang the nuptial song "I Love You Truly." An improvised altar of ferns and palms, pink and red carnations, was arranged in the living room and reception hall. The bride's sister, Miss Susie Schoeps, presided at the bride's register.

The bride was attractive in a one-piece frock of satin black crepe in shades of roses and atmosphere. She carried an arm bouquet of shower Premier roses and sweet peas.

Refreshments of molded ice of cupid and embossed cake in pink and white were served the bridal party. A number of close friends and relatives, among those from Corsicana being Mr. and Mrs. R. E. Schoeps and daughter, Mary Frances Schoeps; Mrs. E. O. Coffey, Mr. and Mrs. Harry Dickson, Mr. and Mrs. L. L. Noble, Miss Orice Gregg, Harry Grote, Mr. and Mrs. W. C. Ketchersid, Mr. and Mrs. Roy Roland and Miss Mary Trimble.

Miss Schoeps is the attractive daughter of Mr. and Mrs. G. W. Schoeps, of Ennis. She held a clerical position with the commercial department of the Southern Pacific Railway Company in Corsicana for the past four years, and has many friends in both Corsicana and Ennis.

Mr. Clark is well-known in Corsicana, having lived here a number of years, where he is engaged in the building contracting business.

## CLOUDBURST TAKES SEVEN LIVES EARLY SUNDAY KENTUCKY

VALLEY IN WHICH COAL-DALE WAS LOCATED WAS FLOODED

By Associated Press.

Pikeville, Ky., Feb. 15.—Seven people were drowned at Coaldale, near here, early Sunday, when a cloudburst flooded the valley in which the town was situated.

This was the report received here Sunday, while other reports placed the dead at from four to 12.

Coaldale, a mining plant of the Edgewater Coal Company, could not be reached by telephone following report of the disaster here, but a report from Ash camp, across the divide on Elkhorn creek, gave the names of Ruff Stillner, and his wife, formerly of Lane, Va., as two of the victims. The body of Mrs. Stillner had been recovered.

A later report from Hellier said that Mr. Stillner's body had been recovered and gave the name of Raymond Sanders, 9 son of George Sanders of Washington state, visiting relatives at Coaldale as another victim.

Coaldale, due to peculiar surface conditions has been subject to occasional floods, but with no loss of life before.

Pike county was swept by heavy rain and electrical storms Saturday night. Efforts are being made to check the reports and ascertain the identity of those drowned.

An undertaker from here left for the scene on receipt of the reports.

## SIX CHILDREN ARE VICTIMS OF FLAMES WHEN HOME BURNS

PARENTS AND INFANT ALSO  
SEVERELY BURNED EARLY  
SUNDAY

By Associated Press.

Houghton, Mich., Feb. 15.—Trapped in two second-story bedrooms in a log farm house, six children, aged from 3 to 10, were burned to death and the parents, Mr. and Mrs. Gottfried Rothenberger, and a four months' old girl, severely burned early Sunday in a fire at Portage entry, 16 miles east of here.

The oldest children, Alfred, 12, and Irving, 11, escaped without injury by jumping through a window to the roof of a shed at the rear of the house.

Rothenberger, who used a rag rug to protect his face while he attempted to rescue the children, was badly burned about the hands and feet.

Before any member of the family awakened, the entire first floor was ablaze and the flames had worked their way up an open stairway.

Rothenberger's wife and baby were sleeping in the room with him. He put Mrs. Rothenberger and the baby through a window on to the roof of a porch at the front of the house and tried to rescue the other children.

Five of the children burned were in a room which after the fire was discovered could be reached only from the roof of the porch. Rothenberger broke a window, but as he did, flames shot out, preventing him from entering.

Ruben Milligan of Richland was a business visitor in Corsicana Monday afternoon.

Mrs. J. E. Butler and Mrs. C. L. Jester left this morning for Fort Worth for a visit to friends.

## Don't Be a "Rubber Stamp!"

In footwear, as in everything else, the truly smart woman likes to express her own individualism. She doesn't fancy shoes stamped out in thousand-pair-lots.

She doesn't have to at Weaver-Reese's. We create our own modes—months before they come into general use. And we purposely keep the quantities small—to try to avoid duplication, among one's own circle of friends. Pictured, a charming new pump in Sauterne kid with India Brown kid trimmings.
